

CHELSON SET TO LAUNCH NEW COLLECTION

Following its 75th anniversary in 2022, the team at Chelsom are excited to announce their hotly anticipated new collection, Edition 28, which launches on May 23rd 2023 at Clerkenwell Design Week.

The product launch incorporates a complete makeover of its existing lighting collection as well as a brand-new website, new sub-brands, and an accompanying new catalogue, for which Chelsom is world-famous. The new collections are made up of an array of different decorative lighting styles, designed specifically with global hospitality, marine and residential interiors projects in mind.

Designed entirely in-house by Robert and Will Chelsom, the new collections will be on show at Clerkenwell Design Week within an exclusive and private exhibition space. This will be the first time Chelsom has exhibited at this globally recognised design event, so don't miss it!

ELSTEAD LIGHTING – INSPIRED BY NATURE

Featured is the Vida chandelier designed by Hinkley and available through Elstead's Quintesse collection. Vida's modern design is inspired by nature with a dramatic seed starburst which is finely sculpted. A statement piece with unique detailing to its canopy and large crystal accents that are supported from a burnished gold frame, Vida injects a thrilling dash of contemporary inspiration to its surroundings.

There are three different shapes of 13lt starburst chandeliers, along with a more contemporary 6lt chandelier, 9lt semi-flush and 2lt wall light. Vida is a golden masterpiece of decorative lighting, that can bring a room to life by day and especially by night.

To see more designer lights from the Quintesse collection visit our website or if you are visiting EuroLuce, Milan (18-23 April) we would be delighted to welcome you to our stand: Pavilion 11.144.
