

Secto Design
Petite Wall Lamp

Discover the elegance of the Petite Wall Lamp by Secto Design, specifically tailored for smaller spaces where a compact yet functional solution is required. The Petite Wall Lamp is a practical choice for the demanding needs of cruise ship interiors, able to swivel from side to side to ensure precise and direct illumination. With the choice of a cable and switch or a direct wall mount, the lamp offers various installation options that can cater to a range of interiors. The Petite collection comprises wall, table, floor and pendant lamps that can be used alone or as a part of a coordinating scheme. Secto Design is a Finnish family-owned company specialising in handmade design lamps crafted from premium PEFC-certified birch. Its entire collection – which features 29 distinct models – is designed by architect Seppo Koho, with all fixtures sustainably manufactured by cabinetmakers in Heinola, Finland. Celebrated for their minimalist Scandinavian design and versatility, Secto Design's lighting creations effortlessly blend into varied hospitality interiors and design languages.

Chelsom
Edition 28

Edition 28 is Chelsom's most eclectic and versatile collection yet, featuring a broader selection of materials and manufacturing skills than ever before. Within the range, artisanal, mouthblown Veneto glass ceiling, table and wall lights have been crafted to meet a variety of customer demands and interior applications. Working in collaboration with specialist Italian glass factories, the British brand has harnessed generations of glassblowing experience and expertise to develop the collection. Both moulded and free-form blowing techniques have been used to create statement pieces that transcend time and are suitable for both traditional and contemporary design schemes.
